

# Blue Line/Camera Stream URL List

## JPG Snapshot URL

<http://username:password@IPAddress/cgi-bin/snapshot.cgi?channel=1&subtype0>

Channel = 1-8 = Camera number | Subtype = 0 Main / 1 Sub

This should allow you to view the systems snapshots data if the camera has it enabled.

## MJPEG Stream URL

<http://username:password@IPAddress/cgi-bin/mjpg/video.cgi?channel=1&subtype=0>

Channel = 1-8 = Camera number | Subtype = 0 Main / 1 Sub

This URL is for streaming cameras with MJPEG compression if RTSP is not supported.

## RTSP Stream URL

<rtsp://username:password@IPAddress:554/cam/realmonitor?channel=1&subtype=0>

Channel = 1-8 = Camera number | Subtype = 0 Main / 1 Sub

This is for streaming cameras from the system to another system where ONVIF or the basic System Protocols are not supported. You can use this in conjunction with VLC or other media players that allow network streams to host a video feed if directed at from a web browser.

Alternate URL for direct Camera Stream

<rtsp://username:password@IPAddress:554/live/realmonitor?subtype=0>

## ONVIF RTSP URL

<rtsp://admin:password@IPAddress:554/cam/realmonitor?channel=1&subtype=0&unicast=true&proto=Onvif>

Channel = 1-8 = Camera number | Subtype = 0 Main / 1 Sub

Used for directing at the ONVIF protocols for streaming in advanced / custom configurations.
