

Green Line/Camera Stream URL List

MJPEG Stream URL

<http://username:password@IPAddress/video/mjpeg/stream1>

stream1 = Main Stream, stream2 = Sub Stream, stream3 = Third Stream

You can interchange stream1 with stream2 or stream3 if sub or third stream has MJPEG enabled. MJPEG needs to be active in the encode settings of the camera for this URL to work.

MJPEG can be enabled under Video & Audio > Video Compression > MJPEG

RTSP Stream URL

<rtsp://<ip>:<port>/unicast/c<channel number>/s<stream type>/live>

<channel number>: 1-128 <stream type> 0 = Main Stream 1 = Sub Stream

Camera RTSP Stream

<rtsp://username:password@IPAddress/media/video1> - **Main Stream**

<rtsp://username:password@IPAddress/media/video2> - **Sub Stream**

Snapshot URL

<http://username:password@IPAddress/images/snapshot.jpg>

For high resolution Snapshot URL. Main Stream Only.
