Login

Don't have an account? [Sign Up](#)

Once on the signup page you will need to fill out the form listed on the page below.

## Create Account

\* Username

\* Region

\* Email

\* Verification Code

\* Password

\* Confirm Password

I have read and agree to [Service Agreement](#)

I have read and agree to [Privacy Policy](#)

The username will be the same name you use on the apps such as Surevision, SVStation, or Guardstation.

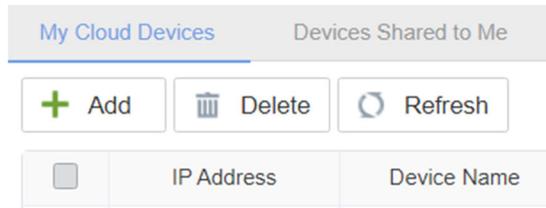

Make sure you select the correct Region as if your region varies it will not allow you to share your system to accounts in different regions.

Make sure your email is easily accessible as you may need to reset your password.

The Verification code will be sent to the email after you hit Acquire.

The password must be 6-20 characters, including letters (a-z, A-Z), digits (0-9) and symbols and cannot only be letters, digits, or symbols.

Once you agree to the Service Agreement and Privacy Policy your account will be made. Once you have the account made. Login and you will see a page that will say My cloud Devices at the top.

On this page you will need to click the ADD button to add your system and you can take the Register Code from the Menu > Network > P2P page of the system and input it into the Cloud Devices page.

The screenshot shows a dialog box titled 'Add' with a close button (X) in the top right corner. The main text says 'Please enter device information below.' On the right side, there is a link 'Where to find the register code?' followed by two options: 'Option 1: Log in to the Web of the device, and then click Network > P2P.' and 'Option 2: Find the register code sticker on the device.' On the left side, there are three input fields: '\* Device Name:' (empty), '\* Register Code:' (empty), and '\* Organization:' (containing the text 'root'). At the bottom right, there are two buttons: 'OK' (blue) and 'Cancel' (grey).

Once added you can view the system on any remote devices that you login using the Username and password you created earlier.
