

## How to Access Our Live Demo

If you are using an **Apple iOS** device you will need to open the **App Store**

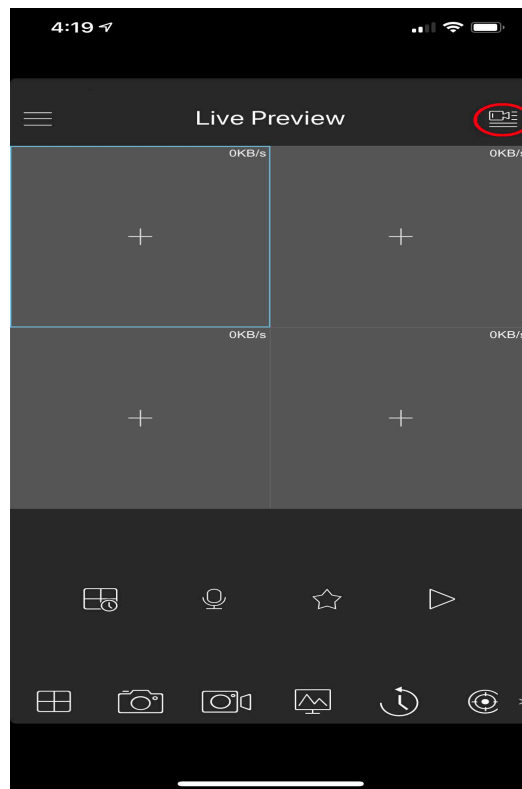

If you are using an **Android Device** you will need to open the **Google Play Store**

Search for our Application inside of the App Store or Play Store.

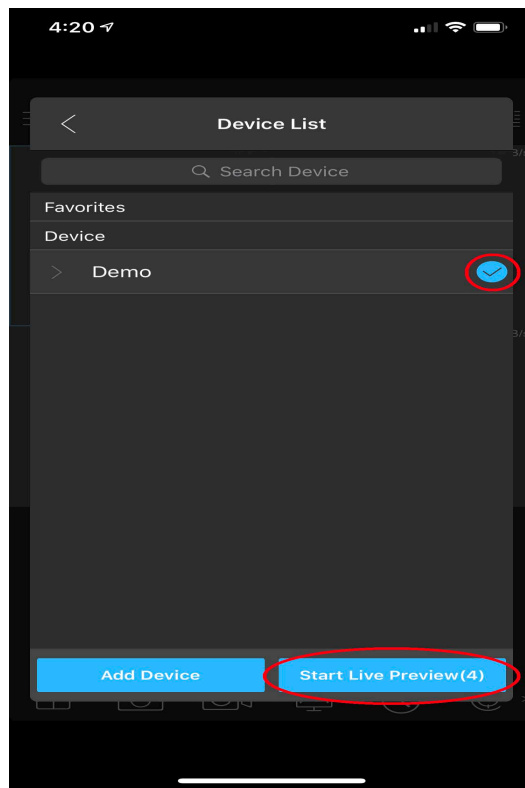

For Mobile Phones please use **SCS Lite**  
For iPads and Tablets please use **SCS HD Lite**

Once SCS has been downloaded follow the instructions below.

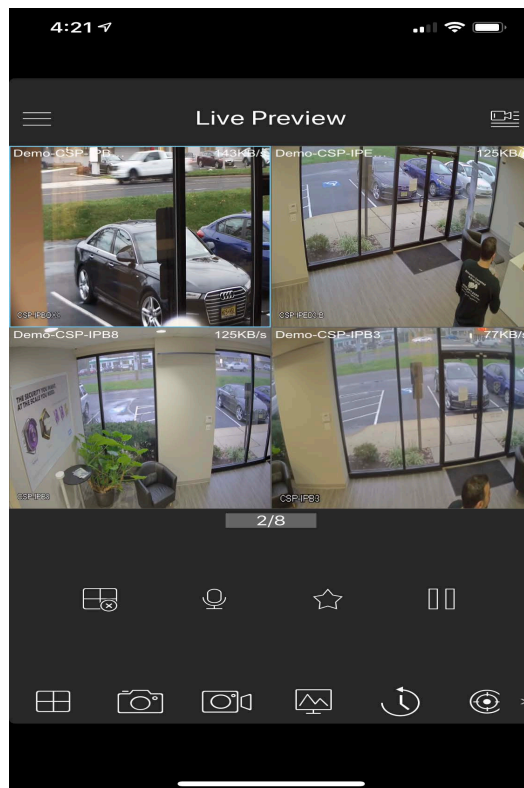

Open the SCS Application. In the **Live Preview** Menu select the **Video Camera Icon** towards the top right of the screen.

Tap on the **Circle Icon** next to the **Demo** Device. Select **Start Live Preview** towards the bottom of the screen.

This will automatically connect you to all 16 IP Cameras found in our Showroom.

You can change the view type to view more than 4 cameras at a time or you may **swipe left and right** on the camera screens to view the next 4 cameras in queue. Please see the below section for an explanation of the **Live Preview Icons**.
