Once the Software is downloaded you may proceed with the installation.

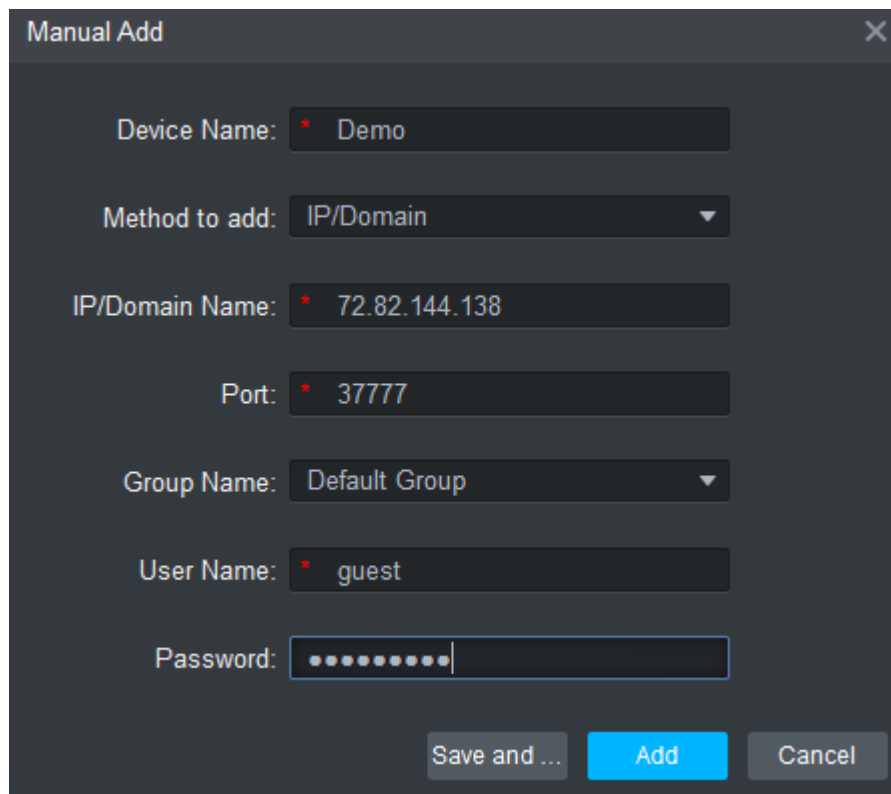

After the installation you will need to Add the Device into SmartPSS. Add the device by clicking on the Add Button at the top left corner.

Add our Demo Device in by copying the info seen in the picture below. Once all the information is copied you may click the Add button at the bottom. Use the following username and password combination. Be sure to enter the IP address of our Demo found below (**72.82.144.138**)

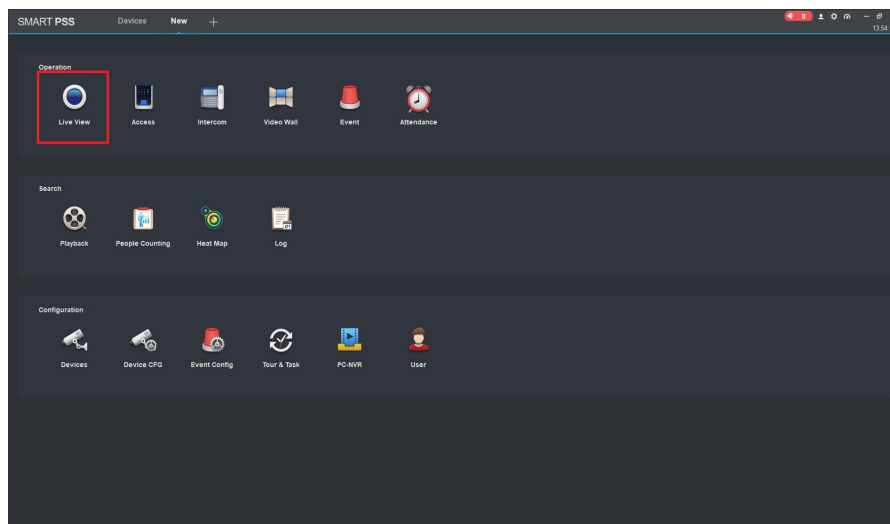

Username: guest
Password: guest1234

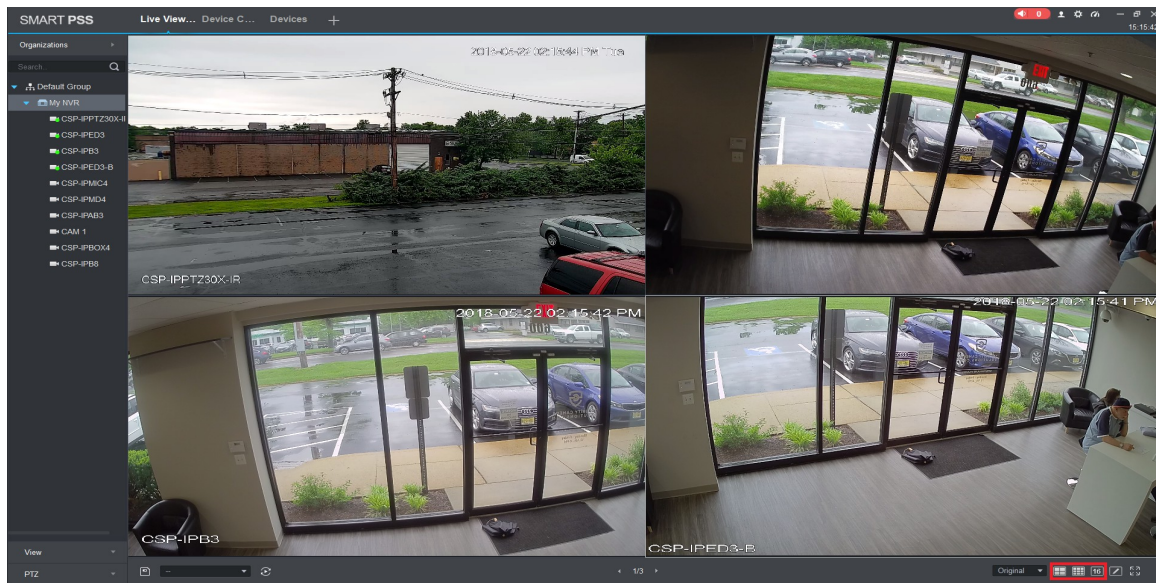

A screenshot of a 'Manual Add' dialog box in a dark-themed application. The dialog has a title bar with 'Manual Add' and a close button. It contains several input fields and buttons. The fields are: 'Device Name' with a red asterisk and the value 'Demo'; 'Method to add' with a dropdown menu showing 'IP/Domain'; 'IP/Domain Name' with a red asterisk and the value '72.82.144.138'; 'Port' with a red asterisk and the value '37777'; 'Group Name' with a dropdown menu showing 'Default Group'; 'User Name' with a red asterisk and the value 'guest'; and 'Password' with a masked input field showing ten dots. At the bottom right, there are three buttons: 'Save and ...' (disabled), 'Add' (highlighted in blue), and 'Cancel'.

The Demo Device will show an Online Status within a few seconds.

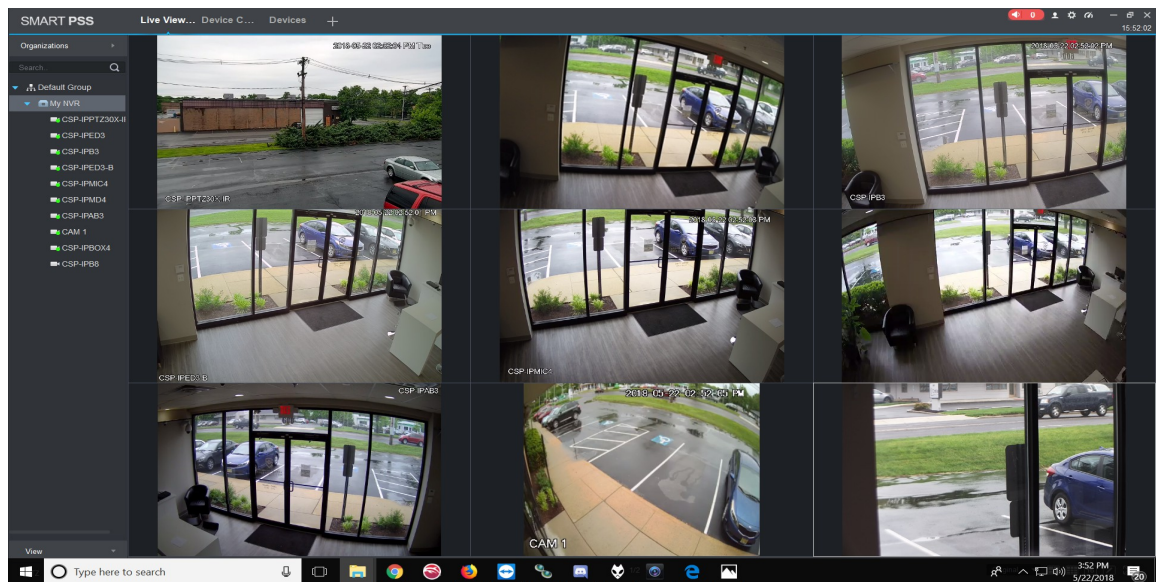

Once the device is online you can Navigate to the live view section of SmartPSS.

Double click on the camera you wish to view on the left column, or drag and drop cameras to the window of your choice.

You may change your window view count at the bottom right hand corner of the screen. Below is an example of a 9 camera view.
